

ANNUAL MEETING SET FOR MAY 10, 2023

By Tim Stewart, CEO/Manager

Clark Electric Cooperative

Your Touchstone Energy® Partner

Clark Electric Cooperative's Annual Meeting is scheduled for May 10, 2023, at the Neillsville American Legion, 6 Boon Blvd., Neillsville, starting at 9:30 a.m.

The annual meeting is an important event for the cooperative. Members will hear reports about the cooperative and the electric industry, review financials, conduct business, and elect their representatives to serve on the board of directors.

The governance process is summarized below and is not intended to replace the detail found in the bylaws.

Nominations by Petition

- Candidates for director shall be nominated exclusively by petition. For a candidate to be validly nominated, the petition shall contain the signatures of no less than ten (10) members. The signature of either or both members holding a joint membership shall constitute the signature of one (1) member. To be valid, a petition must be received by the cooperative not less than 60 days prior to the annual meeting (In 2023 that date is March 10, 2023).

Voting in Person or by Absentee Ballot

- If there is only one (1) nominee for a seat, election may be by unanimous consent or by voice vote or similar process at the annual meeting, without the need to cast written ballots. Where there is more than one (1) nominee, the election will be by ballot, members may vote in person or by absentee signed ballot. Absentee ballots shall be provided to all members. To be counted, absentee ballots must be received by the cooperative or designee not later than noon on the last business day preceding the day of the annual meeting.

Director Districts

- Director district boundaries are intended to balance the number of members in the respective districts while endeavoring not to split towns, villages, or cities between districts. See map of director districts at right.
- The cooperative has seven (7) directors, two of which serve from each district and one (1) serving in an at-large position.

This year members will be asked to elect two directors for a three-year term: one position from district one (1) and one from district three (3). These seats are currently held by Jim Hager, town of Colby (District 1) and Scott Johnson, town of

Unity (District 3). These directors are eligible for re-election.

Any advisory resolutions must be received by the cooperative at least 15 days prior to the annual meeting.

The cooperative's bylaws establish the minimum qualifications for being a director as well as broader detail on the election process. A copy of the bylaws is available on the cooperative's website at www.cecoop.com or by contacting the business office at 715-267-6188. If you have any additional questions about becoming a director, please contact Tim Stewart, CEO/GM, at the business office

Directors are expected to attend monthly board meetings; represent the cooperative in state, regional, and national affairs; and take advantage of NRECA educational opportunities such as classes, seminars, and workshops. Directors need to read, study, and analyze a lot of information throughout the month to keep informed on the electric industry. Directors will spend approximately 20 to 35 days a year in performance of their duties.

Mark your calendar and plan to attend the annual meeting, enjoy a nice lunch, register for a \$25 door prize, and help conduct the business of your electric utility. Member involvement is critically important to the success of your cooperative.

Watch for more information regarding this important event.

SCHOLARSHIP APPLICATIONS AVAILABLE

Clark Electric Cooperative is once again offering a scholarship opportunity to graduating students from qualifying high schools in our service area. One \$2,000 scholarship will be available for a student from each school or group of schools in our service area.

To be considered for the scholarship, the student's parent or legal guardian must be a member of Clark Electric Cooperative and currently receive electric service from Clark Electric Cooperative.

The Clark Electric Cooperative scholarship program began in 1995, and since its inception we have provided more than \$264,000 in scholarships to area students. An independent scholarship committee judges the applicants based upon merit.

Giving back to the community is one of the cooperative principals; furthering the education of our area youth is another. Clark Electric is proud to help these fine young people meet their educational goals.

Applications are available from your high school counselor, on our website at www.cecoop.com, and at our office located at 1209 W Dall-Berg Rd., Greenwood.

All applications must be returned to the cooperative office by 5 p.m. Monday, March 6, 2023.

Schools Eligible for Scholarship Consideration

Abbotsford High School, Colby High School, Granton High School, Greenwood High School, Loyal High School, Neillsville High School, Owen-Withee High School, Spencer High School, Thorp High School, Stanley High School

One Scholarship Between These Grouped Schools:

Group 1: Stratford High School, Columbus High School, Osseo-Fairchild High School, Abbotsford Christian Academy

Group 2: Marshfield Senior High School, Medford High School, Gilman High School, Pittsville High School, Home School Student

Group 3: Lineman Scholarship – A Scholarship may be awarded to a student attending an approved Line Distribution Program

If you have any questions about Clark Electric Cooperative's scholarship program, please contact Tracy Nelson, administrative assistant, at 715-267-7958 or 1-800-272-6188.

These scholarships are financed through the Federated Youth Foundation Scholarship Program, which is funded from unclaimed capital credits. Federated Youth Foundation (FYF) is a non-profit charitable foundation serving cooperatives across Wisconsin.

ENERGY ASSISTANCE MAY BE AVAILABLE FOR YOU

If you find yourself in need of assistance in paying your winter heating and utility bills, certain government organizations can offer heating assistance or point you in the direction of where you can get help. You may be eligible for assistance from the various programs like the Wisconsin Home Energy Assistance Program (WHEAP), Low Income Home Energy Assistance Program (LIHEAP), Keep Wisconsin Warm/Cool Fund, or the Public Benefits Energy Assistance Program.

You can find more contact information and links to many of these programs at jrec.com/energy-assistance, or go to homeenergyplus.wi.gov. You can also call 1-866-HEATWIS or Keep Wisconsin Warm Fund – Bill Pay Assistance at 1-800-981-9276.

Income guidelines for the 2022-2023 Home Energy Plus Program are as follows:

WHEAP Income Guidelines for the 2022–2023 Heating Season

(10/01/2022 through 9/30/2023)

60 percent of state median income guidelines

Household Size	One Month Income	Annual Income
1	\$ 2,675.25	\$32,103
2	\$ 3,498.42	\$41,981
3	\$ 4,321.58	\$51,859
4	\$ 5,144.83	\$61,738
5	\$ 5,968.00	\$71,616
6	\$ 6,791.17	\$81,494
7	\$ 6,945.50	\$83,346
8	\$ 7,099.83	\$85,198

FIVE WAYS TO FIGHT THE WINTER CHILL AND SAVE ENERGY

We all have our favorite season. Some people love crisp, cool weather and bundling up under a favorite blanket, while others prefer the warm temperatures summer brings and all the fun outdoor activities that go with it. But there's one thing we can all agree on: high winter bills are never fun. Here are five tips to help increase your home's energy efficiency this winter:

1 Mind the thermostat.

This is one of the easiest ways to manage your home energy use. We recommend setting your thermostat to 68 degrees (or lower) when you're home. When you're sleeping or away for an extended period of time, try setting it between 58 and 62 degrees; there's no need to heat your home when you're away or sleeping and less active.

2 Button up your home.

The Department of Energy estimates that air leaks account for 24% to 40% of the energy used for heating and cooling a home. Caulking and weather stripping around windows and doors is another simple, cost-effective way to increase comfort and save energy. If you can feel drafts while standing near a window or door, it likely needs to be sealed.

3 Use window coverings wisely.

Open blinds, drapes, or other window coverings during the day to allow natural sunlight in to warm your home. Close them at night to keep the cold, drafty air out. If you feel cold air around windows, consider hanging curtains or drapes in a thicker material; heavier window coverings can make a significant difference in blocking cold outdoor air.

4 Consider your approach to appliance use.

When combined, appliances and electronics account for a significant chunk of our home energy use, so assess how efficiently you're using them. For example, if you're running the dishwasher or clothes washer, only wash full loads. Look for electronic devices that consume energy even when they're not in use, like phone chargers or game consoles. Every little bit helps, so unplug them to save energy.

5 Think outside the box.

If you're still feeling chilly at home, think of other ways to warm up—beyond dialing up the thermostat. Add layers of clothing, wear thick socks, and bundle up under blankets. You can even add layers to your home! If you have hard-surface flooring, consider purchasing an area rug to block cold air that leaks in through the floor.

Winter months often bring some of the highest energy bills of the year. By being proactive about saving energy, you can increase the comfort of your home and reduce monthly bills. Visit our website at www.cecoop.com for additional energy-saving tips.

Happy Holidays!

The holiday season brings to mind all sorts of memories about days gone by, such as decorating the Christmas tree, the aroma of home-baked Christmas cookies, or spending time with family and friends. Whatever your memories are, we hope you savor them this holiday season as you make new memories for the years ahead. We wish you and your family a safe and a joyful holiday season.

Our office will be closed Monday, December 26, and Monday, January 2

WINTER'S HERE:

Be alert for peak alerts

Winter is upon us, and with that comes the time for peak alerts for cooperative members. A peak alert is likely to occur on colder days during the winter months. On these days, the demand for electricity is highest, which also brings the need to conserve energy use whenever possible. The level of demand determines a large portion of the cooperative's energy costs during this time. Reducing or delaying your electrical usage during a peak alert helps lower this cost.

The key is to reduce your consumption between the hours of 4 and 9 p.m. on these coldest winter days. This helps Clark Electric save on our wholesale power bill, and this savings is passed along to the members. By turning off unneeded lighting and appliances, you can help us save a substantial amount.

On these days, the peak-alert messages will be broadcast on the local radio stations. You can also look up the status on our website at www.ccecoop.com. Go to the Operations Tab, Load Management Program and click on the load management status link.

Whether you hear the peak-alert message or not, please help us control our costs by reducing the amount of electricity you use on cold winter days between 4 and 9 p.m.

Energy Efficiency Tip of the Month

Blocked air vents force your heating system to work harder than necessary and increase pressure in the ductwork, which can cause cracks and leaks to form. Make sure all air vents are unobstructed from furniture, drapes, or other items to ensure sufficient circulation throughout your home. If necessary, purchase a vent extender, which can be placed over a vent to redirect air flow from underneath furniture.
